

International Waste Management Consulting

Mission

Dr. Rochlitz Consulting is an independent, private Consulting Company, specialized on Waste Management, Recycling and the generation of Secondary Raw Materials.

Established in 2012 in Hamburg, Germany, our vision is to contribute to a sustainable, global and ecological footprint by reducing waste - in the sense of public and private Corporate Social Responsibility.

Commitment

We are committed to the European Waste Hierarchy:

1. Prevention
2. Reuse
3. Recycle
4. Recovery
5. Disposal

Management

For the last 20 years, Dr. Alexander Rochlitz has been active in the Waste, Recycling and Secondary Raw Materials Industry.

Dr. Rochlitz, As PhD. In Economics, was responsible as Managing Director at Cleanaway, Veolia, Remondis, Sulo and Plastic Omnium.

Dr. Rochlitz is accordingly a specialist in the industry, builds on extensive experience and has an excellent network in the international market.

Waste Management and Recycling

Dr. Rochlitz Consulting offers a wide range of know-how for sustainable municipal and private waste management concepts and implementation.

An orientation towards the individual framework conditions and requirements of each individual customer is the key to sustainability and financial success.

We have particular expertise in European, Latin American and the GCC Markets.

International Customers

- ➔ Municipalities, cities and governmental organizations
- ➔ Private and public waste collectors
- ➔ Waste management technology industry
- ➔ Manufacturing industry and service providers
- ➔ Shopping malls, and retail enterprises
- ➔ Hospitality, recreation and leisure industry

International Business Development

At Dr. Rochlitz Consulting, we are experts in international business development for the waste management industry and provide an excellent international key player network.

We mediate and advise on regulatory framework conditions, international M&A activities, business partnerships, and world wide recyclables trading.

Brokers for Secondary Raw Materials

Dr. Rochlitz Consulting plays an important role as an international broker for secondary raw materials: plastics, electronics, organics, paper/cardboard, metals, etc.

We provide to our clients with a wide international network of supply and demand for Secondary Raw Materials.

Market Development

At Dr. Rochlitz Consulting, we evaluate market trends, regulatory recycling quotas and advise on best practices for recycling material collection and treatment.

We help our clients to setup state-of-the-art waste management and recycling plants:
paper/cardboard, plastics, organics, e-waste and textile.

Financial Benefit

Dr. Rochlitz Consulting is driven by a strong commercial awareness, optimizing operational efficiency and cost structures of our clients.

For us, environmental awareness and a positive global foot print always go in line with degressive cost structures, both being fully complementary strategic targets.
